THE FOREIGN MARKET.

Our London advices to-day report a withdrawal from the Bank of England of £100,000. Money is still stringent at 3% per cent on three months bills. On government securities the rate was 13/2 per cent. American bonds are reported firm. The following were the last quotations:—Consols for money, 92% a 92%; consols for account, 92%; fivetwenty bonds 1865 (old), 95% a 95%; five-twenty bonds of 1867, 95% a 95%; ten-forty bonds, 90% a 70%; new fives, 91% a 91%; Eric Railway shares, 48 48%; new French loan, 7% per cent premium. Gentes in Paris are quoted at 58, a de-sline. In Frankfort five-twentles of 1862 command 97. Late advices by mail, dated August 10, state that there is a glut of money in the Stock Exchange, which accounts for low rates. A correspondent writes as follows:—"The amount of the sew German gold coinage on the 9th inst. was \$24,054,390 marks, or about £41,203,000. The coinage in the week ending the 9th amounted to about 2778,000. All the accounts from the foreign bourses describe a state of stagnation fully equal to that linary rate at which the financial transactions of the world increase year by year, it general suspension of speculative busi-s has at any time been observable. sonsiderable amounts of unemployed capital seek-ing investment, but there is no symptom of anima-Probably in the later months of the year the return of activity will be proportionately greater. Mean, while it is satisfactory to find that, as far as the trade of Austria is concerned, the effects of the Vienna crisis appear to have almost entirely passed away. Advices from Berlin report that market to be much in the same condition as our own. There is a comundant, it is expected that when the principal perators return from the country the better class f stocks will be rapidly taken up, and that great sctivity will prevail in the autumn." THE MONEY MARKET.

which it has occupied for several days past. It ruled firmly at 7 per cent, gold, during the morning, with exceptional dealings at 1-64; but later the market became easier and closed at 4 and 5 per ent. The outflow of currency to the West is not ported to be as great as it has been, and some-ing like a reflux may be expected as incident to to be forgotten that the bacon, wool and cotton srops have yet to be provided for and that the pentral point of disbursement temporarily is New fork. This money will return, not immediately, but certainly, and it is upon this expectation that jobbers to-day are extending credit to thousands of out-of-town merchants goods. Foreign exchange, though weak at one period of the day, closed steady at 108% a 108% for prime sixty day sterling and 109% a 109% for sight; GOLD STILL DECLINING.

The Gold Exchange was again a scene of activity to-day, the contest being resumed between the buils and bears for supremacy. It is now to be fairly inferred that neither of these represent the recent "pool," and that the fluctuations are due solely to the active bidding of the two antagonistic parties, who now are largely the instruments of its distribution. The two extremes of the day were 111% a 110%, and there are not a ew who predict much lower prices. These however, are to be taken o salis, for at any moment oum grano salis. a combination may be sprung which will advance the price 1 or 2 per cent. It is almost abnorma in the history of gold in this country that a speculation of the character through which we have just passed should be followed by some rally or rection. It may be prudently anticipated, for there

It is almost an impossibility to diagnose the condition of the stock market at the present moment. it has no foundation. It is tremulous, uneasy and quickly affected by rumors. It acts as if calamity were impending or expected, and rather invite than repels discouragement. The "bears" for the moment are in their element, yet even these are patient, confess the immediate situation, yet see nothing to prevent

to the benefit of their holdings. In short, the street is in that plastic humor which will take any sharp impression, mould it for the moment to its purposes, and as quickly destroy it for speculative gain. The old habitues of the Exchange say

seen a similar position of affairs, the combinations being entirely new, and the possibilities such as to disturb the best arithmetical calculations. One of the bad features of the hour is the disposition on the part of a few to create panic at the expense of reputation. The names of RESPECTABLE HOUSES are ruthlessly dragged into publicity, and bandied about the street in connection with suspension and failure, and capital is sought to be made out of commercial delinquencies which, at other times, are passed over as only temporary and incident to the fluctuations of trade. When a "bear" market is thus forced to resort to such devices in order to achieve its ends they are anything but healthy symptoms. It is useless to ignore the fact that symptoms. It is useless to ignore the fact that prices are descending. Suspicion more or less rests upon the presidents and directors of our great corporations, because they keep known truths from the public, and it is only a natural sequence that just now, when EVERYTHING IS TUMBLING

shareholders and speculators alike, feel more than ordinary concern with reference to the use made suspension of a large German house, on the strength of which Canton-a stock supposed to be largely held by it—fell off several per cent. A score of exaggerated statements followed. At the last, however, it appeared that the firm alluded to was not only amply protected by its own securities, but could command an abundance of credit from its friends on the street to protect it from any sudden contingency that may have been forced by its worst foe. These malicious reports only increase the elasticity of reaction. The

was comparatively large, the sales at the Board amounting to about 114,000, represented as follows:-Atlantic and Pacific preferred, 1,400; U., C. & I. C., 1.200; Rock Island, 2.200; Canton, 1.475; Northwest common, 1,350; Erie, 2,900; Lake Shore, Ohio and Mississippi, 10,700; Pacific Matl, 20,200; Wabash, 7,500; Union Pacific, 3,800; Western Union, 35,500. As above indicated, Canton fluctuated widely, the price declining from 92 to 85, advancing to 90 reacting to 87, and closing at Those who are inside of the history of this stock under its recent administration, and are familiar with its value, profess to be gratified at figures named, and it is understood most of the stock offered was absorbed by European houses. WEDNESDAY Sept. 10-6 P. M. The merchandise markets were still generally active and in most cases firm. The further material decline in the gold premium begins to exert some influence; but, as a general thing, values remain pretty steady and the markets firm. On 'Change to-day business was moderate. The movement in breadstuffs was slow, and prices on the spot and to arrive were gradually nearing each other. Flour was quiet and easier. Wheat was dull and lower, both on the spot and to arrive. For dull and lower, both on the spot and to arrive. For lots on the spot the market was unsettled and nominal. Corn was also duli and lower. Oats were quiet and closed easy. Whiskey was unchanged. Provisions were quiet and easy. Cotton on the spot was generally firmly held in view of its scarcity. Futures opened easier, but subsequently improved a trifle and closed steady. Coffee was in brisk demand and light supply. Holders succeeded in obtaining a further advance on jobbing sales.

Corror on the spot was somewhat irregular. Grades

Feriours.—Grain room was offered more freely to-day, and rates to Liverpool decined, inducing a more active demand. For other commodities rates ruled steady. In the chartering line we note a moderate business at about previous rates. The engagements were:—To Liverpool, by steam, 55,000 bushels of grain at 119,45. a 1154d; 4,000 boxes cheuse at 55s and 2,500 boxes do. at 68s, 300 boxes bacon at 59s, 125 blads tallow at 68s, 75 tierces beef at 32s, 10 blads to bacon at 78s, 40 blads tallow at 68s, 75 tierces beef at 32s, 10 blads to bacon at 78s, 40 blads to boxes a foss and 50 boxes bacon at 10s. Naval Brokes.—There was scarcely any inquiry for spirits turpentine to-day, and we did not hear of a bid for a round lot; the value therefore is wholly nominal, say about 43c. a 43½c. for merchantable order. Strained rosin was easier, the market being weakened by lower quotations from Wilmington and a continued absence of

ior a round lot; the value therefore is wholly nominal, say about \$26. a \$3/\$c. for merobantable order. Strained rosin was easier, the market being weakened by lower quotations from Wilmington and a continued absence of demand. Permodere for market for refined remained very firm to-day for prompt deliveries, which, together with high freights and lower gold, prevented tranactions for export. There was little inquiry for future, and November and December were obtainable at 16c.; September quoted at 17c, and October at 16/\$c. Cases duit at 21c. for next month. Naphtha inactive but firmly held at 10/\$c. for city. Crude in bulk quiet and steady at 6c. spot and future. Shipping do. nominal, He. at 11/\$c. The creek markets were duil and unchanged. Coroner Keenan was yesterday called to the velt street to hold an inquest on the body of John Makin, Twenty-six years of age and a laborer in Makin, Twenty-six years of age and a laborer in Washington Market, who committed suicide by hanging himself. Makin made a noose in the end of a bed cord, into which he thrust his neck, and, fastening the other end of the cord to the window sash, bowed himself forward towards the floor, and the weight of his body tightened the noose and soon produced strangulation and death. Deceased had been on a drunken spree for several days, which, doubtless, was the cause of his self-destruction. Makin was a native of England.
